

Your well-being is our priority.

March 20, 2020

Out of an abundance of caution, we are closing all of our **day treatment programs** at the end of the program day on Friday, March 20, until April 6, 2020. The closer includes **day treatment programs** that serve people with mental illness, substance use disorders, and developmental disabilities.

AltaPointe leadership is actively monitoring the changing situation around COVID-19 and meeting regularly to ensure we continue to meet the needs of our patients and individuals we serve safely and effectively.

We are plugged into a network of local, state, and national resources for the latest updates on the outbreak to determine appropriate responses and the possible implementation of other measures.

We greatly appreciate your cooperation, patience, and understanding throughout this evolving situation.
