Other Hospitals		892
TOTAL	3	4,762

#### \*Individuals versus 'patients'

AltaPointe professionals provide clinical and consultation services to individuals who have been admitted to area hospitals, nursing homes, assisted living facilities and other agencies or providers. These individuals are not considered AltaPointe patients until they are admitted into our continuum.

#### AltaPointe Health's hospital services

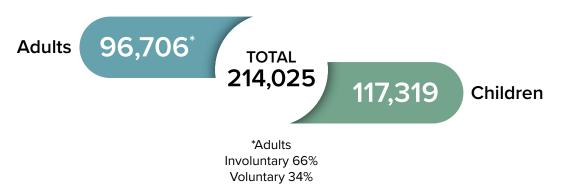

AltaPointe operates two free-standing psychiatric hospitals: BayPointe Hospital located in Mobile, offers a 60-bed acute care unit, a 40-bed residential unit for children, a 75 capacity day treatment program with educational component and a 120 capacity after-school day treatment program; and EastPointe Hospital located in Daphne, offers a 66-bed adult inpatient crisis stabilization unit and a 16-bed adult crisis residential unit. AltaPointe's ownership of these inpatient facilities, and its ability to provide inpatient care, make it the most comprehensive behavioral healthcare system in Alabama.

# **Total Inpatient Services Provided FY 2019**

#### Patient assessment and consultation made easier through technology

AltaPointe Health's Telehealth and ConsultPointe allow AltaPointe to better serve patients in remote locations or in hospitals without onsite psychiatric services available. These services bring AltaPointe psychiatrists, therapists and patients face-to-face through videoconferencing technology. Used at AltaPointe daily, thousands of patients now access care remotely each year. Using telehealth improves assessment, processes, timeliness and outcomes for patients.

#### Merger to strengthen services for people with intellectual disabilities

Mobile Arc (formerly MARC), founded in 1956 for people with intellectual and developmental disabilities in Mobile, merged with AltaPointe Health in July 2019. The merger will enable the organization to serve more individuals, provide more resources to the community, and positions the organization for additional grants, and funding to aid those needing these services.

#### AltaPointe Health's Access to Care FY 2019

# Access, Crisis and Other Calls

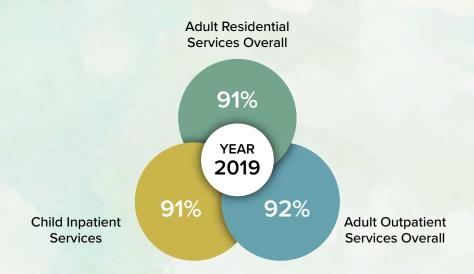

AltaPointe Health's access to care call lines serve two hospitals, 20 outpatient clinics and nearly 100 programs across seven counties. It also supports psychiatric services from more than 30 hospitals and two primary care offices across Alabama as well as referrals to and from three state psychiatric hospitals.

#### **Patient General Satisfaction**

# **Family General Satisfaction**

"My case manager is excellent. She helps me with my development and is always supportive of me. She is always there for me and she goes above and beyond. She is a great mentor and a great influence."

AltaPointe Patient

"We have been to many mental health providers over the years seeking help for our son. After one visit with Bayliew staff, we received more help than at all the other places combined. Bayliew cares and wants to help its patients and families. I highly recommend them. It is a blessing to our family."

BayView Patient's Family

"I highly recommend you visit Accordia for any illness or checkup. Great group of people to help with anything that is bothering you. The staff is fantastic and very caring and listens to what is wrong."

Accordia patient

"I'm a low-income person and they never make me feel less than. I recently had a crisis/suicide attempt and I felt very well taken care of. From the crisis line to the front desk, they are helpful, and I am grateful." AltaPointe Patient

"I am forever grateful for your professional mental health services helping me cope with the loss of my father and mother. You also helped me cope during the custody battle of my daughter."

EastPointe Hospital Patient
